

# Percentage failed in each subject among students who didn't pass the overall TASC

69% of students who failed, failed in math

---

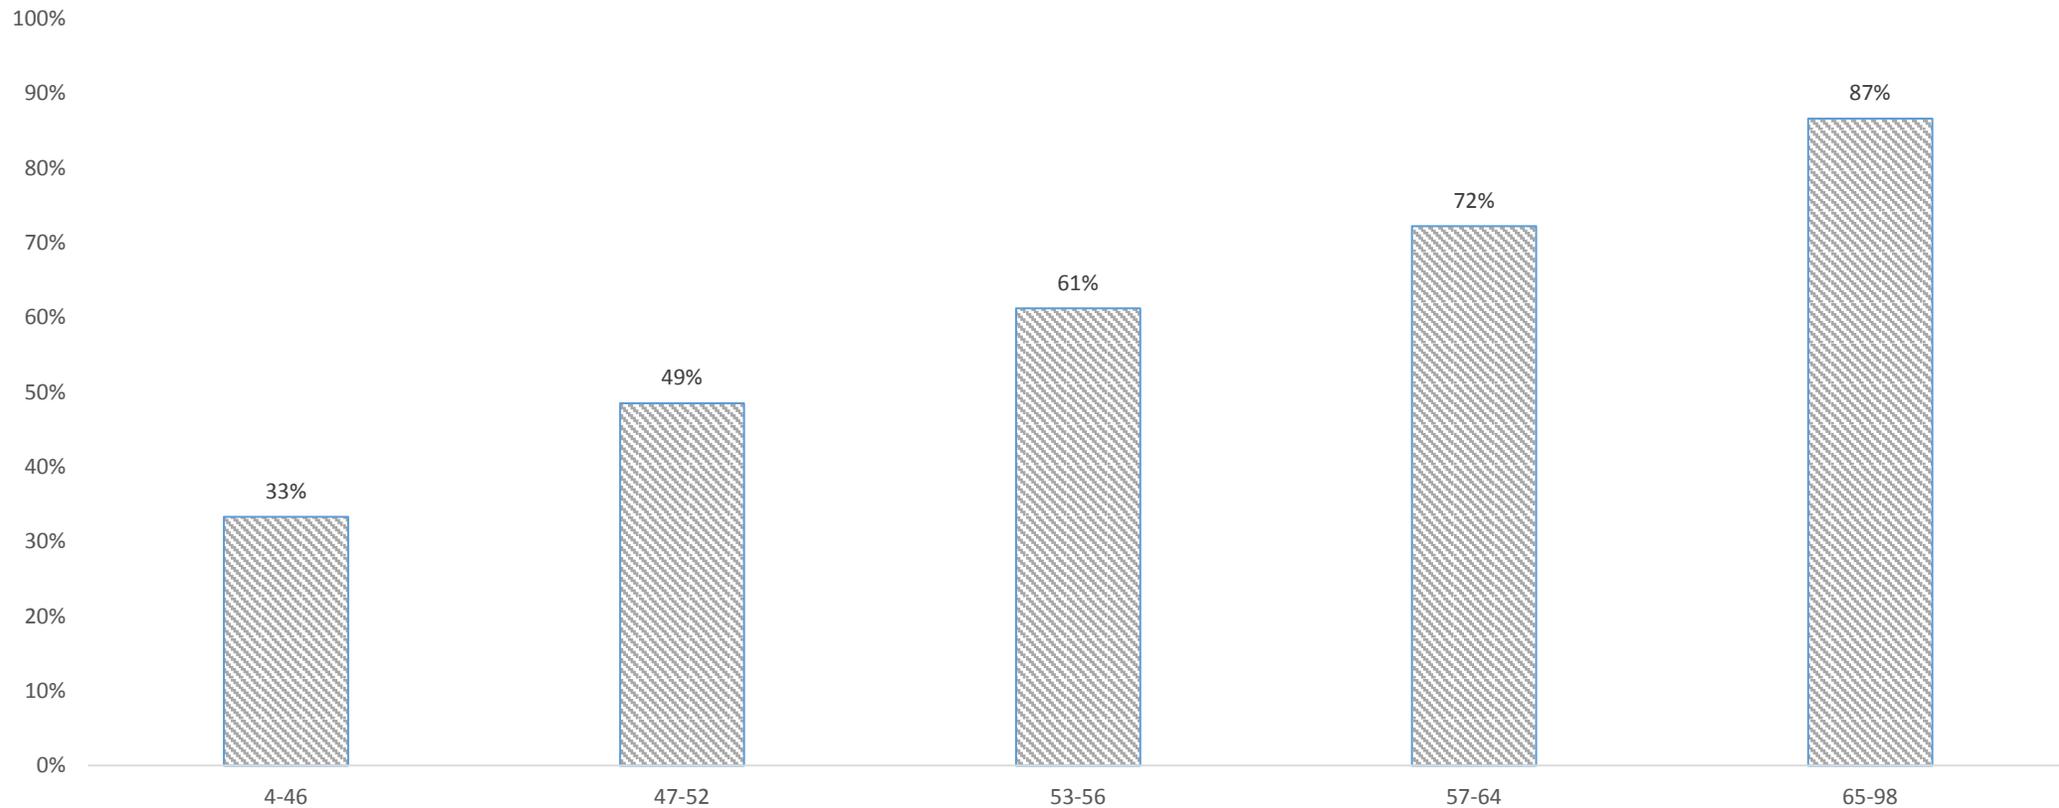

Note: This analysis includes students who took both the ORT and TASC starting January 1, 2014. Only students that have subject scores are included in the analysis. (N=733)

# HSE Pass Rate by ORT Score Quintile

33% of students with an ORT Score in the lowest quintile and 87% of students in the highest quintile pass the TASC on the initial try

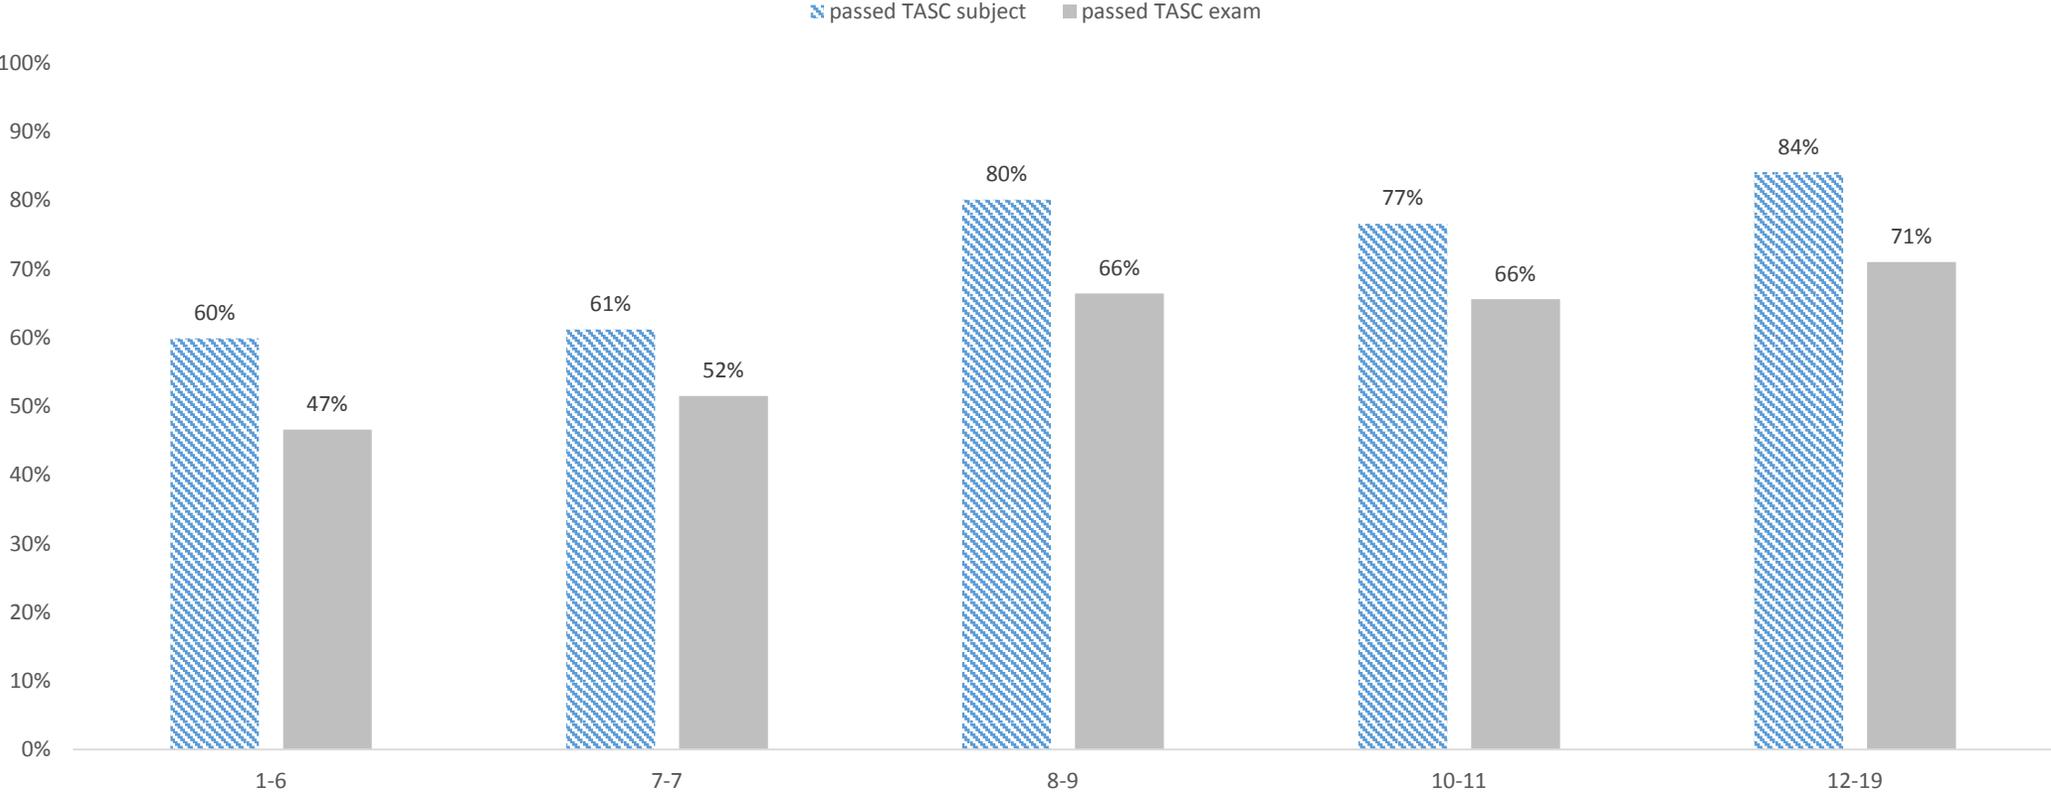

---

Note: This analysis includes students who took both the ORT and TASC starting January 1, 2014. (N=1041)

# Pass Rates By ORT Math Score Quintile

Approximately 60% of students who score in the bottom two quintiles of the ORT math section pass that section compared to 80% in the top three quintiles. Pass rates on the TASC exam are lower than individual subject pass rates.

Note: This analysis includes students who took both the ORT and TASC starting January 1, 2014. Only students that have subject scores are included in the analysis. (N=738)
